ABOUT ME

Driven and detail-oriented Information Technology professional with a strong foundation in programming, debugging, and system management. Proven ability to provide technical support, mentor others, and resolve complex technical issues. Seeking to leverage my skills in a challenging IT role to deliver impactful solutions and support organizational goals.

EXPERIENCE

• 2024 -2025

Centurion, Pretoria

Softkings IT Solutions – JNR ICT Specialist

- Built and maintained WordPress websites (Agriseta, Impact Edge), including theme customization, plugin integration, and responsive design improvements.
- Develop and support applications and web projects using PHP, Python, HTML, CSS, JavaScript, and SQL, including testing, debugging, and feature enhancements.
- Maintain and update Agriseta websites with new content, ensuring timely daily updates.
- Support system and network administration, including installations, configurations, connectivity troubleshooting, and backups.
- Developed and integrated APIs (e.g., PayFlex, FastPay) for an online shopping system, building automated workflows to handle data processing, storage, and system integrations in cloud-based environments.

• 2022 - 2024

Rivonia- South Africa

HOPMEDIA – JNR SOFTWARE ENGINEER

- Designed, developed, and maintained software applications to meet client and internal requirements.
- Conducted code reviews, debugging, and testing to ensure high-quality software delivery.
- Implemented database structures, optimized queries, and ensured data integrity to improve application performance.
- Assisted in the development and maintenance of web applications using Java, C#, Python, HTML, CSS, JavaScript, and SQL.
- Integrated AWS S3 using APIs and SDKs to programmatically store and retrieve media files, building cloud-based workflows for broadcast systems.
